FEEDING SUCCESS

FORAGE

**ALFALFA
OIL PLUS**

High calorie, high oil alfalfa chaff for performance and condition

- Suitable for horses that require non-heating*, fibre-based calories
- High oil content to support condition and coat quality
- Natural source of protein and minerals
- Low in starch and with no added molasses
- A high fibre feed to encourage chewing and support normal digestive function

* A non-heating feed is one that is less likely to produce excitable behaviour in some horses and ponies when fed at the recommended rate

Profile

Oil	12.00%
Fibre	30.00%
Ash	7.00%
Starch	3.00%
Sugar	3.50%
Est. DE	12.5MJ/kg

Please note that variations in the visual appearance of this product may arise due to changing environmental conditions throughout the growing season and at harvest.

Alfalfa Oil Plus Composition

Alfalfa, Rapeseed oil

Feeding Rate

As a chaff addition to the concentrate feed: 150-400g/100kg bodyweight per day in conjunction with free access to forage. For example, feed a 500kg horse 750g-2kg per day.

As a replacement for the concentrate feed: 500g-1kg/100kg bodyweight per day with Ultimate Balancer or Performance Vitamins & Minerals and free access to forage. For example, feed a 500kg horse 2.5-5kg per day.

Do not exceed 1kg/100kg bodyweight per day in total. Divide into at least 2-3 meals per day.

Ensure a minimum intake of 1.5kg/100kg bodyweight of forage per day. Fresh drinking water must be available at all times. For use with target species only.
